Full Moon

No Mercy

See the full moon
We look at its face
It'll be me looking at you
Glad to be in one place
See the full moon
We look at its face
It'll be me looking at you, oh, oh
Imagine ourselves alone in the world
Still couldn't agree on anything
Lying to each other wouldn't do
'Cause we own each others memories, yeah
Spend all our days
If we pack and away?
Our decision is complete
Baby, let's say goodbye
When you look up to the sky
And see the full moon
We look at its face
It'll be me looking at you
Glad to be in one place
See the full moon
We look at its face
It'll be me looking at you, oh, oh
See what we've done
And you feel where we've gone
Let's not spoil the good we have
Lost the fear, lost the faith, oh, oh
Imagine ourselves alone in the world
We'd be bored to tears
Baby, let's say goodbye
When you look up to the sky
And see the full moon
We look at its face
It'll be me looking at you
Glad to be in one place, yeah
See the full moon
We look at its face
It'll be me looking at you
Glad to be in one place

See the full moon
We look at its face
It'll be me looking at you, oh, oh
Yeah, oh, see the full moon
Uh, the full moon
Uh, the full moon, uh
Uh, the full moon
See the full moon, yeah
Uh, the full moon, uh
Uh, the full moon
The full moon
Uh, the full moon, uh
