# Bloodstain

## Deceivers

They say, "If you took it all away
This love would fall apart"
I say, "No way
You don't know the size of my heart"Vicious, suspicious
It doesn't matter what I say
Users and losers
There's nothing here to make me stayBloodstain, on a blue vein
Take it with no shame
Love tracks on a loose train
BloodstainNo gain with no pain
My scars are deeper than you think
Tie me, try me
One more time before I sinkBig lies, big times
This love is not what we're about
It's too late, and I'm too straight
It's time to blow this fire outBloodstain, on a blue vein
Take it with no shame
Love tracks on a loose train
Bloodstain, on a blue veinTake me softly
I'm going crazy for your touchBloodstain on a blue vein
(Blue blood, blue blood, blue blood)
Take it with no shame
(No, take, no, take, no, take)I'm alone
And dissatisfied
And someone else is alone
And dissatisfiedYou are alone
