

# Paperweight (feat. Schuyler Fisk)

[Joshua Radin](#)

Been up all night staring at you  
Wondering what's on your mind  
I've been this way with so many before  
But this feels like the first time  
And you want the sunrise to go back to bed  
And I want to make you laugh  
Mess up my bed with me  
Kick off the covers I'm waiting  
Every word you say I think  
I should write down  
Don't want to forget come daylight  
Happy to lay here  
Just happy to be here  
I'm happy to know you  
Play me a song  
Your newest one  
Please leave your taste on my tongue  
Paperweight on my back  
Cover me like a blanket  
Mess up my bed with me  
Kick off the covers I'm waiting  
Every word you say I think  
I should write down  
Don't want to forget come daylight  
And no need to worry  
That's wastin' time  
And no need to wonder  
What's been on my mind  
It's you  
It's you  
It's you  
Every word you say I think  
I should write down  
Don't want to forget come daylight  
And I give up  
I let you win  
You win cause I'm not counting  
You made it back  
To sleep again

Wonder what you're dreaming
