

# Like I Care

## Helmet

I'm paralyzed  
Just listening to you  
Now I am receptive I know you sleep  
So sound every night  
And you are deceptive It always feels good to be right  
And if it helps you sleep at night  
I'll tell you what you want to hear  
And act like I care Ooh It always feels good to be right  
And if it helps you sleep at night  
I'll tell you what you want to hear  
And act like I care It always feels good to be right  
And if it helps you sleep at night  
I'll tell you what you want to hear  
And act like I care Act like I care  
Act like I care  
Act like I care
