Like I Care

Helmet

I'm paralyzed Just listening to you Now I am receptiveI know you sleep So sound every night And you are deceptiveIt always feels good to be right And if it helps you sleep at night I'll tell you what you want to hear And act like I careOohIt always feels good to be right And if it helps you sleep at night I'll tell you what you want to hear And act like I careIt always feels good to be right And if it helps you sleep at night I'll tell you what you want to hear And act like I careAct like I care Act like I care Act like I care
