# In and Out

## Mr. Alfa

In and out
Nice and slow babe
You know, you know you're for me
I want to tell you baby
I've waited for so long
Fantasized in my mind
You and I we'll slow grind
The feel of your body, your skin
Rubbing up next to mine
Your leg I wrap around
Baby you know I'm down
In and out
Nice and slow babe
I'm gonna give it to you
Like you give it to me
In and out
Deep all night babe
When I'm there inside
That's where I want to be
I know you like it too much
And baby so do I
You know it looks so good
And it feels so right
Just a thougth of you
Makes my yearning rise
Any time, any place
I want to be inside
In and out
Nice and slow babe
I'm gonna give it to you
Like you give it to me
In and out
Deep all night babe
When I'm there inside
That's where I want to be
In and out...
Candles very low
Shadows on the wall
Our bodies up and down

Girl, I hate to talk
Not much new
Baby, come with me
In and out
Nice and slow babe
I'm gonna give it to you
Like you give it to me
In and out
Deep all night babe
When I'm there inside
That's where I want to be
In and out
Nice and slow babe
