

Right By You

Justin Nozuka

Lay by the wind and show me
The meaning of good love
If I would believe I don't need
True love Oh... I will do right by you
Oh... I will do right by you Lay on the wind and lie my side with you
And through and through
Here on the path of love and meaning
From where we come Oh... I will do right by you
Oh... I will do right by you
Oh... I will do right by you
Oh... I will do right by you Oh no don't run away
Another moment
Oh no don't run away Oh... I will do right by you
Oh... I will do right by you Oh don't run away
Another moment
