I Am What I Am

Predatory Violence

Looking at me through the eye of a needle is a scary thing to do to scrutinize every move I make I feel a mole hill lies in front of me to climb Is your primary purpose in life cos if it is I think your wasting precious time Well I know that I have got a job to do And I know, that my job is pleasing you, but I am what I am The way god made me I am what I am Well I know I have my weaknessess as you point them out to me Don't try and change me but our confont the spots of doubt as they arise Never born to be a leader cos a soldier with his honours lies inside but I'll take my role with pride As you say, that my job revolves around you Well I know that I have got a job to do I am what I am I am what I am The way god made me Don't try and change me Well I know that I have got a job to do But my life, wasn't made:for you I am what I am I am what I am The way god made me Don't try and change me I am what I am The way god made me
