

Acorns & Orioles

Guided By Voices

Over the summer somehow waiting
Sometimes craving and I gave it all away
Left my mind stripped away, kept everyone away I can't tell you anything you don't already know
I can't tell you anything you don't already know
I can't tell you anything I am the minister and the impostor
You said I'm on my own but I am not alone
You are the militant fighting to bring me home I can't tell you anything you don't already know
I can't tell you anything you don't already know
I can't tell you anything
