

Scuzzboots

Sugar Ray

Call you on the telephone
Supposing that you're not alone
Baby talking all around
Saying that you can't be found
You say you're never really satisfied
It's not enough, it's never enough
You say you're never really satisfied
It's not enough, it's never enough
To tell the truth, to find another lover
To tell the truth, to find another lover
I'm finding it hard, finding it harder
I'm finding it hard, finding it harder

The room is kind of dark at night
I used to have you by my side
Seems the more I gave to you
Kept us from being true
You say you're never really satisfied
It's not enough, it's never enough
You say you're never really satisfied
It's not enough, it's never enough
Tell the truth, to find another lover
Finding it hard, finding it harder
