It Turns to Rust

[Kataklysm](#)

Fear with a touch of sin
Death to resurrect
Pain to inflict the world
Just let it growTo let your blood flow
To feed your dying soul
I'll bring you to this war
I'll bring you to your doorAll compassion fails
Your heart is just as stale
Everything you touch turns to rustAll compassion fails
Your heart is just as stale
Everything you touch turns to rustIt turns to rust
(It turns to rust)Hate in the darkest place
Faith it dies with me
Wrath to save your soul
Just let it growTo let your blood flow
To feed your dying soul
I'll bring you to this war
I'll bring you to your doorAll compassion fails
Your heart is just as stale
Everything you touch turns to rustAll compassion fails
Your heart is just as stale
Everything you touch turns to rustIt turns to rust
(It turns to rust)
Yeah, it just turns to rustI don't care about your pain and your grief
It's all about your greed
For every single thing
(Thing)
For every single moment
(Moment)
You took from me
(You took from me)
