Interlude - "The Old Man" #3

Birdman

(*Prod. by Keleigh Reid for Kelstar Productions)
Look at that. I don't think I've ever seen a boat 150 feet long.
I'm sorry they don't call that a boat, they call that a yacht or something right?
What's stickin' over the top of the roof of that
Oh look at that they got a helicopter on top of the yacht, my God!
Unbelievable! That's a nice boat, maybe we can go out for a boat ride sometime,
Throw a couple people off the back...
Every time you see me you got a new car, a different car.
I didn't even know that phantom came out in a convertible yet!
And don't tell me that's that new Lamborghini that just came out.
That's about a million dollars.
First off, how's Slim going to get in that car, he can't even get in that car!
So that's how you's livin' here down in Miami.
I guess I got to take a couple more trips down here, keep an eye on you guys.
I can never know where you's are though you's in a different car everyday!
New car here, new car there.
I don't understand when we were young we had old cars with suicide doors,
The doors opened the guns came out, boom boom bang bang,
We were done with everything and we left.
