Idiot's Lantern

Listen to me now
No words, I can say, can describe
How I hate your fucking face
And do you hear me now
You stole my soul with your lies
Your killing zone's where I lie
There you watched me die
You fucken suck
Can you see yourself I lie in my bed

Fantasizing your death
Here I lie
Can you see yourself
And how do you sleep with what you are?
What you turned out to be
Fuck you, kill yourself
You fucken suck
Liar you know I do I wish you well
Liar I died for you I wish you well in hell ...in hell
