Cellophane Girl

Graham Colton

Cellophane Girl

You?re leaving me here
I want you to know that
I wanted you there cuz you were the best thing in my life
Somehow I know someone is on the other side
You?re turning me over
I?m letting you look deep inside

Cellophane Girl
Playing her part in a cellophane girl
Cellophane Girl
See through me

Hello there girl you leave a sweet taste in my mouth
On the edge of the world she?d rather jump than just look down
You?re taking me under
You?re leaving me dry
We?re coming up with lies and lies and lies yeah

Cellophane Girl
You are playing your part in a cellophane girl
Cellophane Girl
Do ya see through me?

When you?re on the edge and looking down
With all the lights flashing around
Stars shine above your head
Don?t you give up just yet

You?re leaving me here
I want you to know that I
I still want you here cuz you are the best thing in my life

Cellophane Girl
You are playing your part in a cellophane girl
Cellophane Girl
Do ya see through me?

When you?re on the edge and looking down
With all the lights flashing around
