

# Sweet Children

## Green Day

See a young girl so soft and blonde  
Doesn't attack me, but she did once  
Intoxications in her veins  
Sweet young boy plays with her brain  
Lydia'll bring to life  
What are your chance not to oblige?  
Putting his hand on her thigh  
Ability has now been ripped  
Take it away, I'd rather sit  
Sweet children  
Sweet children  
Sweet children  
Remember when  
Johnny's playing fun and games  
Or else he's in the storage shed

Running from the light of day  
Or maybe lie and celebrate  
The funny circus from his head  
Follow me, if you understand  
I'll trick her so she'll do it  
Then I'll sing and now we run  
Sweet children  
Sweet children  
Sweet children  
Remember when  
Sweet children  
Sweet children  
Sweet children  
Remember when
