

Contingent Upon Failure

Mortimer Nova

i believe in anomaly
community for the emptya roll of the dice
could be the night
could be tonightstanding in the center of downtown
she wears a frown, no evening gowna toss of the coin
could be the night
could be tonightwith a fast hidden shadow
a life unknown drags me below a spin of the wheel
could be the night
could be tonight
a roll of the dice
could be the night
could be tonight
