

# Don't

## Jewel

Don't walk too close  
Don't breathe so soft  
Don't talk so sweet  
Don't sing  
Don't lay oh so near Please, don't let me fall in love with you again Please let me forget  
All those sweet smiles  
All of the passion  
All of the heat, the peace, the pain  
And all those blue skies  
Where your words were my freedom Please, don't let me fall in love with you again Too many times  
I've cared too much  
I stood on the edge  
And saw that you held my hand  
And knowing too well  
I couldn't hide from those eyes Please, don't let me fall please  
Don't let me fall in love with you again
