

# Out of Time

Vanessa Elisha

[prod. by XXYYXX] It feels to me you would never leave  
And I wouldn't have to wait just to hold you  
Not being on my own  
I wish I could fly like a bird,  
Give you everything you deserve  
I know that I'm missing you when I turn around  
And you're gone I feel your touch and it lingers  
I feel your touch, I am in beats  
Is this what is like to believe in?  
Come closer, the clock is still ticking And we're running out of time  
We're running out of time  
We're sure running out of time  
We're running out of time  
Yeah, we're running out of time  
We're running out of time  
We're sure running out of time  
We're running out of time I'd be out on a stage,  
You're on a different page  
It's hard to be with you now  
When I loved it right out here  
I wish I could fly like a bird,  
See you from across the world  
I'm scared to let go right now  
'Cause I'll turn around and you're gone I feel your touch and it lingers  
I feel your touch, I am in beats  
Is this what is like to believe in?  
Come closer, the clock is still ticking And we're running out of time  
We're running out of time  
We're sure running out of time  
We're running out of time  
Yeah, we're running out of time  
We're running out of time  
We're sure running out of time  
We're running out of time [instrumental/vocal break] And we're running out of time  
We're running out of time  
We're sure running out of time  
We're running out of time  
Yeah, we're running out of time  
We're running out of time

We're sure running out of time  
We're running out of time credit to lyrics on top
