

# obey

## Pradada

First let me say I'm sorry  
In case I go too far  
But I don't foresee a problem  
For the fact that here you are!  
And here I am, here's my disclaimer  
If you decide to stay  
I swear you won't regret this moment  
But first I need you to obey  
Embrace screams, lay it down, loose those jeans  
Show you how your pussy works yea  
I can be your B. Mcknight, take all day.  
But first obey!  
Oh, oh, oh

If only for one moment  
Accept me as your king  
In return I'll turn to love you  
My hand, your neck, no screams.  
Tap me once if it's too much pressure  
Tap twice if you need to breath

Don't play tough if you're not ready  
Before you faint on me

Obey, stay in place  
Oh, as I grab your waist  
Don't get mad if I bury your face  
I might snatch your hair if it's real  
Ride the wave, take all day  
But first obey!  
Embrace screams, lay it down, loose those jeans  
Show you how your pussy works yea  
I can be your B. Mcknight, take all day.  
But first obey!  
Slow it down, your're cumming all over me  
I aint tripping it'll all wash off with a towel  
Take your time, the sun don't come for a while  
Meanwhile I'mma make sure to make you smile  
Grind slow, no premature popping the gun.

I'm tryna work the middle down til it's all done,  
Til its all done, til its all  
Oh, oh,oh
