

# Everlasting

[Holly Miranda](#)

Love comes and love goes  
Sometimes it stops, we don't notice  
We're not going, we are drifting apart  
There's gotta be somewhere you see  
With a head so high above the trees  
That tide away, that comes to drown heart  
But I'd never do you that way  
I'd never do that to you  
I'd never do that because  
My love is everlasting for you  
And my love is everlasting for you  
And maybe I've seen this before  
And shut down and walked down the door  
But I'm fighting harder against the feeling  
And it's not always the easy way  
But when you feel the feeling ending  
'Cause it's the open heart that's feeling  
And I'd never do you that way  
I'd never do that to you  
I'd never do that because  
My love is everlasting for you  
And my love is everlasting for you  
Oh-oh oh ohh  
Oh-oh oh ohh  
Oh-oh oh ohh ohh  
My love is everlasting for you
