

# Emotional Decay

## Beseech

I know your kind  
I've seen that smile  
I won't let you come back But you know  
Just how to make my world fall back  
Just how to make my world turn black I cannot breath  
My mind is blank  
You're laughing when I cry Why did you bring  
My happiness so deep inside  
My happiness there just to die Just how to make my world fall back  
Just how to make my world turn black  
On sunless days we're side by side Sunless days  
Sunless days  
My emotional decay You're hiding now  
I'll cut you out  
My sky will gather clouds Where can I go  
I try to hide but can not find  
I try to leave all things behind My happiness so deep inside  
My happiness there just to die  
'Cause on sunless days we're side by side Sunless days  
Sunless days  
My emotional decay I try to hide but can not find  
I try to leave all things behind  
'Cause on sunless days we're side by side Sunless days  
Sunless days  
My emotional decay
