

Homesick Again

Nazareth

Sad to be alone
Your only comfort is the telephone
Homesick again Thoughts of far away
Silence is the only way to say
Ain't it a shame? What's goin' down? She don't understand
Can't you be with her every night?
Why must it be, you're away so long?
But she plays along
And it's alright People all around
You don't see or hear them make a sound
It's not the same What's goin' down? She don't understand
Can't you be with her every night?
Why must it be, you're away so long?
But she plays along
And it's alright Countin' out the days
That don't help to ease the days away
The price you pay
Homesick again
