

# Bovine, Swine, and Human-Rinds

## Cattle Decapitation

Deep in the butchery  
Spurs a concoction of human innards  
Sautéed and boiled with poultry and swine  
The stench is unbearable  
Twitching, severed, lifeless  
To be ground into filler  
Grade D yet edible  
Innocent you lie-the stench wont die!  
In bloody piles of swine-my god, the stench!  
Blistered and cauterized-stench of burnt flesh!  
Of bovine and swine-and sapien rinds  
Intestines and fatty tissue swept aside, theres more  
In line to die
