Don't Breathe

[Brad Paisley](#)

Oh yeah, sure, no problem
I'll just throw away these feelings
Let go of all these hopes
And never think of youNo offense but you've lost it
If you think I'll just forget you
And decide that I don't love you
Do you realize what you're tellin' me to do?It's like sayin' "Don't breathe or don't blink"
Well darlin', I don't think you understand
See, I can't just turn this offIt's like sayin' "Don't eat and don't sleep"
Our love's just one of those things
That I've gotten used to doin' way too longYou don't have to worry
I'm not gonna stop you
If you can pack up all your things
And head on out that doorBut don't stand there and tell me
How you think it would be best
To leave my feelings in the past
And not allow myself to love you anymoreIt's like sayin' "Don't breathe or don't blink"
Well darlin', I don't think you understand
See, I can't just turn this offIt's like sayin' "Don't eat and don't sleep"
Our love's just one of those things
That I've gotten used to doin' way too longIt's like sayin' "Don't eat and don't sleep"
Our love's just one of those things
That I've gotten used to doin' way too long
