

No More War

Bronski Beat

No more war, please
No more destruction of innocent life
No more living in fear
No more on our bended knees
To live is our right No more war, please
No more war
It's got to stop
Ooh, we got to make it stop No more money for bombs
When the poor people hungry on the street
No more sending young men to fight
As they die for false glory and false pride
(Do or die, do or die, do or die, do or die, do or die) No more war, please
No more war, please
Who wants to die? No, hmm, hmm
No, hmm, hmm
No more war No, no, no more war
No, no, no more war
No more war No more
No more war
Who wants to die?
Who wants to die?
