

Sing for You

Tracy Chapman

1..2..1..2..3.4

Sweet and high at the break of dawn, simple tune that you can hum along too, I remember there was a time...

I used to sing for you, doodododododoo, doodododododoo, doodododododoo, I used to sing for you,
doodododododoo, doodododododo-do, doodododododoo.

Knew all the words to the popular songs, with the radio on full volume, I remember there was a time...

I used to sing for you, doodododododoo, doodododododoo, doodododododoo, I used to sing for you,
doodododododoo, doodododododo-do, doodododododoo.

Get the chorus, you're the bridge, words and music to everyday I've lived, there's nothing I wouldn't give, for
one more time, when I can sing for you...

doodododododoo, doodododododo-do, doodododododoo, oh yeah, doodododododoo, doodododododo-do,
doodododododoo.

Soft and low when the evening comes, holding you sleeping in my arms, I remember there was a time...

I used to sing for you, doodododododoo, doodododododoo, doodododododoo, I used to sing for you?

doodododododoo, doodododododo-do, doodododododoo, doodododododoo, doodododododo-do,
doodododododoo,
ooo when I used to sing for you..
