

# Get Out

Mitchel Musso

You spin around like a broken record  
It plays your name every time the needle skips  
It's been that way since the last December  
I can't live like this anymore You're stuck inside every conversation  
Yes I know that you're really good and gone  
But I'm a slave to this obsession  
How can I move on? You're in my thoughts, in my head  
In my heart, in my dreams  
And I wish you would stop haunting me Get out, get out, I can't take it no more  
Breathe in, breathe out  
'Cause I die a little every time I think about you Get out, get out 'cause I'm going crazy  
I scream and shout  
I try everything but you're still here and I can't stop missing you The way I feel every time you're with me  
How you say it all without a word  
I keep hearing time heals, everything So tell me why does it still hurt  
Like you only just told me goodbye  
And I can't get you out of my mind Get out, get out, I can't take it no more  
Breathe in breathe out  
'Cause I die a little every time I think about you Get out, get out 'cause I'm going crazy  
I scream and shout  
I try everything but you're still here and I can't stop missing you I hate to love you, I hate to let you go  
You're good at leaving but I'm no good alone Get out, get out, I can't take it no more  
Breathe in breathe out  
'Cause I die a little every time I think about you Get out, get out 'cause I'm going crazy  
I scream and shout  
I try everything but you're still here and I can't stop missing you Get out, get out  
Breathe in breathe out You spin around like a broken record  
It plays your name every time the needle skips, skips  
Skips, skips, skips, skips, skips, skips
