

# Get On

## Herms, The

Hey

Well, you've been wearing your burden like a two ton chain

Take it off, throw it down

Send that petty party packing on the midnight train

Get it gone, ship it out

Call him all curvy, skinny, don't matter ugly, pretty

Let's talk it down and dirty

If you wanna catch a ride through a good time

This is a song, get on

And if you wanna have a party, we can start it right

What you waiting on, get on

Don't let it slip away, it's all about today

Hear all the people say, get on, baby, get on

We got that boom, boom, bumping like a downtown quake

Wake it up, shake it down

We got the girls, all jumping at the Tucson Lake

Feel the love moving 'round

The party's getting hotter, we got the fire, water

Turn up some Joe Cocker

If you wanna catch a ride through a good time

This is a song, get on

And if you wanna have a party, we can start it right

What you waiting on, get on

Don't let it slip away, it's all about today

Hear all the people say, oh, get on, baby, get on

Get on, get on

Get on, get on, get on, get on, help me, ladies

Get on, get on, get on, get on, turn it up

Get on, get on, get on, get on, turn it up

Get on, get on, get on, get on all day

If you wanna catch a ride through a good time

This is a song, get on

And if you wanna have a party, we can start it right

What you waiting on, get on

Don't let it slip away, it's all about today

Hear all the people say right now

We'll get you feeling right, just rock it and we'll talk

We'll rock it all night

Oh, get on, baby, get on, life, get on  
Don't let the meek get on, that was get on
