Impossibly Lonely

Arlan Feiles

I've been fading been half crazy
Spinning and pacing hoping you'd find me
But on the wire blazing on fire
I'm stillh hoping your looking for more than a
Blind fed crack rad caught in a trap
Well i could promise you more than that

I would be waiting, waiting and wasting
I would be impossibly lonley without you

Watching the day break
Feel my heart take
I'd save the sunlight hoping you'd find me
To come and save me, to elevate me
I'm still hoping your looking for more
Than a concrete dead beat stuck in the cracks
I could promise you more than thet

I would be waiting, waiting and wasting
I would be impossibly lonley without you
I would be searching looking and yearning impossibly lonley

Without you
Without you

And i could hold you fast and mount strait away
Is there nothing more i could say
I would be waiting, waiting and wasting
I would be impossibly lonley without you
Without you
