Back To Life

Rock Kills Kid

I have waited for this day
To feel I'm fitting in
And I have longed to feel this way
To be alive againI came back, back, back to life
I came back, back, back to life
I came backI made plans to go away
And never to return
I did not think I'd feel this way
But this is what I've learnedI came back, back, back to life
I came back, back, back to life
I came backAnd now there's time to think
Of someone else besides myself
And now there's time to think
Of someone elseI came back, I came back
I came back, back, back to life
I came back, back, back to lifeI came back, back, back to life
I came back, back, back to life
I came back, I came backI came back, back
I came back, I came back
I came back, I came backI came back, back, back to life
I came back, back, back to life
