

Scared To Live (With Toots Hibbert)

Gov't Mule

Never wanted to be swept away
I thought I might lose myself
Nobody told me there'd be music, sweet music
Now I got that sinking feeling
Though I try to brace myself I can feel me start to surrender, sweet surrender
Everything I needed to remember
Everything I needed to forget
When I see you smile, I am a child
I'm captured Never once thought I could love someone
More than I love myself
Nobody told me about forgiveness, sweet forgiveness
Now were waving our flag in the air
The one we sewed together
We planted our seeds in the ground
Roots are growing Everything I needed to remember
Everything I needed to forget
When I see you smile, I am a child
I'm captured
Oh I'm captured, oh yeah
Yes I'm captured
Oh I'm captured
