Anywhere

Passenger

If you get out on the ocean
If you sail out on the sea
If you get up in the mountains
If you go climbing on treesOh, through every emotion
When you know that they don't care
Darling, that's when I'm with you
Oh, I'll go with you anywhereIf you get up in a jet plane
Or down in a submarine
If you get onto the next train
To somewhere you've never beenIf you wanna ride in a fast car
Feel the wind in your hair
Darling, just look beside you
Oh, I'll go with you anywhereOh, and I will be with you
When the darkest winter comes
Oh, and I will be with you
To feel the California sun
Oh, and I will be with you
In the nighttime when it's through
Oh, I'll go anywhere with youIf you get up in the hillside
If you ride out on the planes
If you go digging up dirt, if you
Go out dancing in the rainIf you go chasing the rainbows
Just to find the gold ain't there
Darling, just look behind you
Oh, I'll go with you anywhereOh, and I will be with you
When the darkest winter comes
Oh, and I will be with you
To feel the California sun
Oh, and I will be with you
In the nighttime when it's through
Oh, I'll go anywhere with youYeah, I'll go anywhere with youOh, and I will be with you
When the darkest winter comes
Oh, and I will be with you
To feel the California sun
Oh, and I will be with you
In the nighttime when it's through
Oh darling, I swear, I'll go anywhere with youOh, I'll go anywhere with you
Oh, I'll go anywhere with you
Oh, I'll go anywhere with you

Oh, I'll go anywhere with you
