

Made Of Steel

Our Lady Peace

I can be anything
That you want me to be
A punching bag
A piece of string, no
That reminds you not to think They found the note down in your car
It's not your fault it gets this hard
Gets this hard [Chorus]
Hold your head high
Don't look down
I'm by your side
I won't back down
You wanted a hero tonight
Well I'm not made of steel
I'm not made of steel
But your secret's safe with me I can be anything
That you want me to be
A holy cross
Some sympathy, no
That reminds you how to bleed They found the note down in your car
You climbed up here to fall apart
Fall apart [Chorus] No, your secret's safe with me They knock you down
I'll pick you up
They laugh at you
I'll shut them up But I'm not made of steel [Repeat x4]
But your secret's safe with me
Yeah, your secret's safe with me
Yeah Hold your head high
Don't look down
I'm by your side
I won't back down
You wanted a hero tonight
