How Did We End Up Here

B4-4

I let you go, you did just the same
We must have thought that we'd be
Better off that way
Now here we are free to move on
Searching just to find the love
We both had all along
After all the words were said now
I'm thinking we should just be friends
How did we end up here?
Didn't we say goodbye?
I guess it took breaking up
To make us realize
How did we end up here?
I thought we couldn't work it out?
It seems the circle of love
Brought us back around
We acted strong
We thought we tried our best
To save what we had
By giving up on all the rest
It all just seems so clear
At least at the time
Convincing ourselves
We were just doing what was right
After all those talks together
Thought we gave up on forever
How did we end up here?
Didn't we say goodbye?
I guess it took breaking up
To make us realize
How did we end up here?
I thought we couldn't work it out?
It seems the circle of love
Brought us back around
Sometimes the truest lies
Are the ones we tell ourselves
The very last time we said goodbye
Inside we meant don't go
How did we end up here?

Didn't we say goodbye?
I guess it took breaking up
To make us realize
How did we end up here?
I thought we couldn't work it out?
It seems the circle of love
Brought us back around
How did we end up?
How did we end up here?
How did we end up
Right back where we started?
How did we end up?
How did we end up here?
How did we end up
Right back where we started?
