Golden Days

Kensington Prairie

These are the golden days
In this golden age that we're livin'
I show you a thousand ways
I show you how we take what we're given
Alright
Yeah
You can say what you want
We don't need your permission
Cause you're so busy talkin'
That you don't even listen
You can do what you want
You know that we don't mind
You got the years
But we got the time
These are the golden days
In this golden age that we're livin'
I show you a thousand ways
I show you how we take what we're given
You can say what you want
We don't need your permission
With all the things that you hide

How do we look suspicious
Better look straight ahead
Don't look over your shoulder
Because you'll wake up to find
That we've taken over
These are the golden days
In this golden age that we're livin'
I show you a thousand ways
I show you how we take what we're given
(We have the strength to survive)
These are the golden days
In this golden age that we're livin'
I show you a thousand ways
I show you how we take what we're given
These are the golden days
In this golden age that we're livin'
I show you a thousand ways

I show you how we take what we're given
Don't take what you're given
Don't take what you're given
We won't take what we're given
