

# summerbreeze

[aVid\\*](#)

It might have been a while  
Since you've been loved  
Like you should be lovedIt might have been a while  
Since you've been kissed  
Like you should be kissedIn tender loving arms  
Might be something you missWell summerbreeze is blowing through your window  
And summerbreeze is blowing through your hair  
And something in your eyes that you cannot disguise  
Don't tell me it ain't thereIt might have been a while  
Since you've been loved  
By one who really loves youIt might have been a while  
Since you could trust  
That someone really caresWhen people like us  
Meant to go 'round in pairsSummerbreeze is blowing through your window  
And summerbreeze is blowing through your hair  
Something in your eyes that took me by surprise  
Don't tell me that it ain't there
