Animals On Wheels

Sam Phillips

Am I your pussycat? I know what's new
It's the oldest hat in the book
We can't get fast enough to go backwards
And take a second lookAnimals on wheels faster, faster
Animals on wheels faster, all the timeSome want to leave us and go to another planet
And blow up the earth
They'd still be murderous, lying and they'd want it all
For whatever it's worthAnimals on wheels faster, faster
Animals on wheels faster, all the timeFamous is fast
You don't have to be talented or do good work or be smart
It's perfect for me
But every time I go after it, my ideals run off with my heartAnimals on wheels faster, faster
Animals on wheels faster, all the timeAnimals on wheels faster, faster
Animals on wheels faster, all the time
