

Vacancy

Stars In Stereo

There a hole to fill here
It's an empty grave
And when I'm feeling restless
I wanna waste away
If I could leave my body
And be a skeleton
I wouldn't miss a moment
I could begin again
Theres no vacancy
With your hold on me
It's what you made me see when I'm down
Can't be without what you made me see
It's what you made me see
Now I feel the silence
That I cant escape
Haven't seen a soul here
In a hundred days
If you find me missing
There's no coming back
Living as a shadow
All I am is past
Theres no vacancy
With your hold on me
It's what you made me see when I'm down
Can't be without what you made me see
It's what you made me see
Now I feel the silence
I can't escape it
Theres no vacancy
With your hold on me
It's what you made me see when I'm down
Can't be without what you made me see
It's what you made me see
