

# Move On

## Run Kid Run

Your words, they never spoke so clear to me  
The way they did that day  
I always dreamed we'd be forever  
I always thought it'd be okay I took for granted all you gave me  
I never thought you'd go away  
Was this not love that we were sharing  
I thought love never went away Say goodbye to memories  
'Cause I have said so long  
Say goodbye to all our dreams  
It's time now to I see now this is where our story ends  
So just move on, I'm told  
Today I loved someone for three years  
Tomorrow learn to just let go To have your best friend always be there  
Then one day to see her go  
My world is falling all around me  
And girl, you're all I know Say goodbye to memories  
'Cause I have said so long  
Say goodbye to all our dreams  
It's time now to move on And on and on I've tried to let go  
My mind can not forget you  
You're all I know Say goodbye to memories  
'Cause I have said so long  
Say goodbye to all our dreams  
It's time now to Say goodbye to memories  
'Cause I have said so long  
Say goodbye to all our dreams  
It's time now to  
I think it's time now to move on, move on
