

# Love Psalm

## Konami Kukeiha Club

All my love, is it worth more than your pearls  
She said she wants to ride in my car  
Girl you must mistaken me for a rock star  
I'm just a simple man who loves the roots hard  
Can't give you lots of money but girl you can be my love  
Girl you can be my love  
Say you can be my love  
Will you receive my love

Cuz it's so nice, so nice when you are around  
Your touch, your smile girl you need a crown  
Baby I'm coming, rolling though your town  
Wont you hang out with me for a while  
I know your mama don't like I natty dreads  
But you know my love is better than the rest  
And if you don't then put me to the test  
I can be your king you can be my empress  
And let the haters hate cuz they can't get you  
As long as you know that our love is ever true  
And I'll be laying by your side very soon  
And I'll make you forget all the things that trouble you  
When we're together it's like we're living in a love psalm girl  
When we're together it's like we're living in a love psalm girl

When we are together it feels so nice  
When I am alone all I want is you by my side  
When we're laying down under the sky  
Girl you get me in a natural high  
You fill my heart with love  
You must be from above  
I love your gentle touch  
I want you very much  
And I would be with you my darling  
And I would never be dishonest  
I would be with you my darling  
And I would never be dishonest  
Cuz when we're together it's like we're living in a love psalm girl  
When we're together it's like we're living in a love psalm girl

So I cannot give you diamonds or drive no fancy car  
The most important riches are held within you heart  
Your worth is more than anything that they could ever stock  
Your love is more than anything that I could ever want  
To me you is so precious you is my number one  
You is I lioness and I is your lion  
I would never hurt you I'd never treat you wrong  
You put me in a trance girl in a love psalm  
So give to I your love, your love
