

# Three Evils (Embodied In Love and Shadow)

## Coheed and Cambria

Advisory - the following lyrics contain explicit language:

Across the floor in the hand of where we drove the Drill  
A cautious ear to the mouth of your confession  
Think of all the things we put him through  
In the face of his God would he tell the truth? Still recorded were the words that dribbled out his Kiss  
When eyes go blind in this man of what could once become  
Sever the limbs off his torso in sleep  
And burn what remains so the world may now see No longer, will we wait for your answers  
Back to the hell where you've come from  
Think of all the times you've once had  
Write them in a letter that says goodbye You'll listen to reason  
While you're face down in the dirt  
You'll stomach the hurt  
And break for him here just how much he's worth Slowly discarded were the remains of his lonely youth  
Among the alley where the dwellers scare to notice  
Picture a young boy in pieces and streets  
With leveled malfunctions no name to be called Redeemer We'll fix him restore him  
With the love if no other  
Think of all the things you did before  
Write them in a letter that says reborn You'll listen to reason  
While you're face down in the dirt  
You'll stomach the hurt  
And break for him here just how much he's worth Following you across the interstate walking away  
I'll fire on  
Following you across the interstate walking away  
I'll fire on  
Following you across the interstate walking away  
I'll fire on On the wrong way out  
On the causeway to never where  
On the wrong way out  
On the causeway to never where  
On the wrong way out  
On the causeway to never where Dear my friends, in the time we've spent

Forever after beyond this when will our nightmare ever end, end, end?

Dear my friends, in the time we've spent

Forever after beyond this when will our nightmare ever end, end, end? Pull the trigger and the nightmare stops

Pull the trigger and the nightmare stops

Pull the trigger and the nightmare stops

Forever you will, forever you will learn Pull the trigger and the nightmare stops

Pull the trigger and the nightmare stops

Pull the trigger and the nightmare stops

Forever you will, forever you will learn Pull the trigger and the nightmare stops

Pull the trigger and the nightmare stops

Pull the trigger and the nightmare stops

Forever you will, forever you will learn
