

# Willie, Waylon and Me

## David Allan Coe

I'd heard The Burritos out in California  
could fly higher than The Byrds  
Roger McGuinn had a 12 string guitar.  
It was like nothing I'd ever heard  
And The Eagles flew in from the west coast  
Like The Byrds they were trying to be free  
While in Texas the talk turned to Outlaws  
Like Willie and Waylon and me.

Hey!

Well they say Texas music is in the make  
And we've been making music that is free  
Doing one night stands and playing with our bands  
Willie, Waylon and me

Oh Mad Dog!

They say The Beatles were just the beginning  
of everything music could be  
Just like The Stones I was rolling along  
Like a ship lost out on the sea  
And Joplin would die for the future  
And Dylan would write poetry  
And in Texas the talk turned to Outlaws  
Like Willie and Waylon and me

Hey!

My name is David Allen Coe and I'm from Dallas Texas.  
They say Texas music is in the make  
And we've been making music that is free  
Doing one night stands and playing with our bands  
Willie, Waylon and me

Big Jim!

I'd heard The Burritos out in California  
could fly higher than The Byrds  
Roger McGuinn had a 12 string guitar.  
It was like nothing I'd ever heard  
And The Eagles flew in from the west coast

Like The Byrds they were trying to be free  
While in Texas the talk turned to Outlaws  
Like Willie and Waylon and me.
