

Last Time (I Said Your Name)

The Lonely Forest

It was Hard to Leave you
Without having the time to talk
I couldn't seem to find the words
Or tell if I was lost or not
Everytime our Eyes met
I forgot Why I came
It was the last time I said your name I waited By myself
Wasn't sure how I felt
I watch them go in and out
Is this clarity or doubt? It was Hard to Leave you
Without having the time to talk
I couldn't seem to find the words
Or tell if I was lost or not
Everytime our Eyes met
I forgot Why I came
It was the last time I said your name From the hill; by the graVES
I can see where we stayed
And your friend crashed and used her phone
we were frightened, but not alone.
