

Separate the Boys from Men

Pyogenesis

[Music & Lyrics: Flo V. Schwarz] Growing up with patience

means you'll be a man

Going through all stations

not only you will understand

Cause all the kids are staying kids

and all serious become men

Don't give a shit, don't look behind you

and time will separate

Separate the boys from men

Sort out everything you can

- All the boys from men

- Everything you can

Now, you've gotten older

now, you've gotten wise

You tell all the youngsters

give them your best known advice

Cause all the kids are staying kids

and all serious become men

Don't give a shit, don't look behind you

and time will separate

Separate the boys from men

Sort out everything you can

- All the boys from men

- Everything you can
