

Save Me

Big Country

No turning back
No looking around
I wasnt searching
See, what I found Inside the spaces
Inside of me
If theres a reason
What will it be Come on and save me
Come on and save me
I want to know if youre the one
Thats gonna change me Go on and change me
Hey, rearrange me
I need to know if youre the one
Thats gonna save me I thought I knew
I had my hope
Swing in the changes
Ring out the old Im happy chasing
What I cant reach
Im still embracing
Secrets I meet Come on and save me
Come on and save me
I want to know if youre the one
Thats gonna change me Go on and change me
Hey, rearrange me
I need to know if youre the one
Thats gonna save me I wasted time
But that wasnt mine
I hung the jury
I fled the crime Shake off tomorrow
Break off the past
I know that sorrow
It never lasts Come on and save me
Come on and save me
I need to know if youre the one
Thats gonna change me Go on and change me
Just rearrange me
I need to know if youre the one
Thats gonna save me Come on and save me
Come on and save me
I want to know if youre the one

Thats gonna change meGo on and change me
Hey, rearrange me
I need to know if youre the one
Thats gonna save me
