Satellite (feat. Jonathan Mendelsohn)

Tritonal

When your world's colliding
Crashing from the sky
IÃ¢Â€Â™ll be your satellite
To guide you home
No, you are not alone
Though itÃ¢Â€Â™s right there
Is no hope inside
IÃ¢Â€Â™ll be your satellite to let you know
You are not aloneI can hear your heart
beat, beating from miles away
And I can see the dark clouds
Swallowing the light of day
I'm stuck in this fear and I don't know why
Cause I would never leave your side
Baby can't you see
I'm always watching over
I'm in your galaxy
Just look over your shoulderWhen your world's colliding
Crashing from the sky
I'll be your satellite
To guide you home
No, you are not alone
Though itÂ€Â™s right there
Is no hope inside
I'Â€Â™ll be your satellite to let you know
You are not aloneYou are not alone
You are not alone
You are not alone
You are not alone
