

When Levon Sings

Willie Nile

When Levon sings

Levon sings

Gates fell open and we all got wings

Better tighten up them guitar strings

The sun's gonna shine when Levon sings Once upon a time was a drummer in a band

He kept a mighty beat across a promised land

He played with a smile from ear to ear

Now up in heaven all the angels want to hear When Levon sings Levon sings

Gates fell open and we all got wings

Better tighten up them guitar strings

The sun's gonna shine when Levon sings Born on a farm down in Arkansas

Best damn singer that you ever saw

Now he's keeping time with the man upstairs

When the lightning cracks that's Levon's snare

The lightning cracks that's Levon's snare When Levon sings Levon sings

Gates fell open and we all got wings

Better tighten up them guitar strings

The sun's gonna shine when Levon sings Levon was but a man it's true

Working every day like me and you

But when that voice begins to roar

The chains break free on heaven's door

The chains break free on heaven's door When Levon sings Levon sings

Gates fell open and we all got wings

Better tighten up them guitar strings

The sun's gonna shine when Levon sings When Levon sings Levon sings

Gates fell open and we all got wings

Better tighten up them guitar strings

The sun's gonna shine when Levon sings

The cotton is high when Levon sings

The sun's gonna shine when Levon sings
