

# Trip To Mars

## Stereo Fuse

You're on a trip to Mars  
You're a superstar that's who you are, yeah  
You're on a rocket ride  
To a suicide have you lost your mind, yeah Everywhere you go now  
Everybody knows your name  
Anything that you desire  
Just a phone call away You're on a trip to Mars  
You're a superstar that's who you are, yeah  
You're on a rocket ride  
To a suicide have you lost your mind, yeah Everyone you used to know  
Slowly fades away now  
Everyone around you  
And the scene is all the same You're on a trip to Mars  
You're a superstar that's who you are, yeah  
You're on a rocket ride  
To a suicide have you lost your mind, yeah You're a superstar, yeah  
You're a superstar, yeah  
Have you gone too far? Yeah  
You're a superstar, yeah Now everyone surrounds you  
Like a child you get your way  
And if I stick around you  
You'll be driving me insane You're on a trip to Mars  
You're a superstar that's who you are, yeah  
You're on a rocket ride  
To a suicide have you lost your mind, yeah You're a superstar, yeah  
You're a superstar, yeah  
Have you gone too far? Yeah  
You're a superstar, yeah
