## **Trip To Mars**

## **Stereo Fuse**

You're on a trip to Mars
You're a superstar that's who you are, yeah
You're on a rocket ride

To a suicide have you lost your mind, yeahEverywhere you go now

Everybody knows your name

Anything that you desire

Just a phone call awayYou're on a trip to Mars

You're a superstar that's who you are, yeah

You're on a rocket ride

To a suicide have you lost your mind, yeahEveryone you used to know

Slowly fades away now

Everyone around you

And the scene is all the sameYou're on a trip to Mars

You're a superstar that's who you are, yeah

You're on a rocket ride

To a suicide have you lost your mind, yeahYou're a superstar, yeah

You're a superstar, yeah

Have you gone too far? Yeah

You're a superstar, yeahNow everyone surrounds you

Like a child you get your way

And if I stick around you

You'll be driving me insaneYou're on a trip to Mars

You're a superstar that's who you are, yeah

You're on a rocket ride

To a suicide have you lost your mind, yeahYou're a superstar, yeah

You're a superstar, yeah

Have you gone too far? Yeah

You're a superstar, yeah
