

# Sure Thing

## St Germain

It's saturday night and it's a perfect night for dancin'  
I've had my makeup off and on all day  
But it's gotta be right for a night of sweet romancing  
And i've combed my hair at least a thousand ways  
Mirror mirror don't you tell a soul  
Of how i smiled and talked all day to you  
And how i practiced every step i know of  
But tonight's the night and i'm a dancing fool  
(it's a sure thing) when the sun goes down this evenin'  
(it's a sure thing) to be out on the dancing floor  
(it's a sure thing) i'll be the last one leavin'  
(it's a sure thing) gonna dance till i can't no more  
I could of had a date but i thought i'd take my chances  
I'm gonna dance with a different guy to every song  
Then i'm a gonna wait till the right one strikes my fancy  
The he's gonna be the one to dance me home
